

## Pre-Majors

Programs we could find that currently have pre-majors:

Biology

Elementary Education

Communication Studies

Media Studies

Nursing

Respiratory Therapy

Medical Lab Science

Medical Radiography

Surgical Technology

Dental Hygiene

Questions:

1. What is the purpose of identifying students as pre-majors?
2. Why not simply identify them as majors?
3. What happens to pre-majors who do not make the cut?
4. What percent of pre-majors ultimately become matriculated majors?
5. What criteria were used to set the minimum GPA?
6. When a student does not maintain the required GPA, what happens to them?
